12	Sakarya Victory
13	Financial resources of National struggle
14	Great Offensive and its Results, the Armistice of Mudanya
15	The Peace Conference of Lausanne and abolishment of the sultanate
16	Final Exam

NO	PROGRAM OUTCOMES	Contribution Level		
		3	2	1
1	Within cultural, historical and artistic context the ability to integrate theoretical knowledge about production and consumption mechanisms into the design practice;	X		
2	The ability to plan the design process, to choose and use appropriate methods and techniques;			X
3	The ability to identify design problems and related sub-problems and to produce creative solutions with a critical and dialectical approach;			X
4	The ability to design in terms of spatial thinking using design principles and elements;			X
5	The ability to make applications in the interaction of aesthetics and function using design elements and means and to evaluate these applications;			X
6	The ability to visualize and present using two and three dimensional design tools;			X
7	The ability to follow and apply technological developments, current design approaches, sustainable production methods, materials and innovations in the field of informatics in design projects;			X
8	The ability to use field knowledge in industrial design projects by considering the needs and interests of the society and target users within the scope of environmental awareness, professional ethics and the laws;			X
9	The ability to carry out the design process effectively individually or in a team;			X
10	The ability to take an active role in discipline-specific or interdisciplinary studies at the national and international levels.			X

1: None. 2: Partial contribution. 3: Complete contribution.
